

Why a Quality 25+ Point Tune-Up?

Semi-annual Quality Tune-Up's keep your heated automotive spray booth and prep-station equipment functioning properly and within factory recommended specifications while increasing your productivity and life of your investment. Your Tune-Up technician will need about 3 hours to perform the services and you will receive both a verbal and written summary at the end of each Quality 25+ Point Tune-Up.

Complex electric controls are thoroughly reviewed.

Assurance... We are so confident trouble will be headed off before it occurs that should you need repair service on the booth or prep-station within 6 months of the Quality Tune-Up we established ***First Priority Service**** exclusively for our Quality Tune-Up customers. With *First Priority Service* your service needs goes to the top of our list and the service rate is lower than standard, now that's a winning combination.

* First Priority Service Customers receive priority scheduling with 48 hour technician response M-F (excluding holidays). Discounted service rate requires all recommended corrective actions from the Quality Tune-Up have been implemented by Collision Equipment Experts, LLC. see pricing section for details.
